Re: Request for Underlying Data

Dear Mr. Fitzhenry:

This letter is a follow-up to our discussion of yesterday. As you will recall, U.S. EPA has asked that you provide the documentation and/or data relied upon in several of the Attachments to the Comments submitted by Granite City during the most recent public comment periods. Specifically, U.S. EPA requests that you provide the underlying data and documentation used to support Attachment 5, Traffic Report, prepared by Crawford, et al., as well as the underlying documentation, data and questionnaires used in Attachment 7, the Economic Assessment of the Proposed Clean-up, prepared by Dr. Hewings.

Additionally, U.S. EPA is renewing the request that I made in my December 5, 1994, letter to you. We EPA request that you provide the data and conclusions derived from the Recontamination Study performed by Dr. Bornschien. I understand from you that this study may not yet be final. If that is the case, I would be interested as to when it may become final and when we might expect to see the report and all data and analysis.

Thank you in advance for your cooperation. I look forward to hearing from you.

Sincerely,

Sean Mulroney
Assistant Regional Counsel
